

JULY 2025

# ROCKWOOD SCHOOL DISTRICT LAFAYETTE HIGH SCHOOL REPLACES ASPHALT PARKING LOT WITH (A WHOLE LOT OF) FULL-DEPTH CONCRETE

Over 365,000 SF of Concrete is being placed at Lafayette High School in the Rockwood School District. This project will utilize nearly 6,000 cubic yards of Concrete. The school district has been a big proponent of Concrete and was site of the first Concrete Parking Lot Overlay (Crestview Middle School back in 2006), with many more following afterward, including the huge Marquette High School Concrete Parking Lot Overlay, also over 350,000 square feet, and site of a major "hard hat tour and demonstration" during construction.

This is a great example of our philosophy to "Change the Default" of major asset owners in our region. We are also working with Contractor members to support consideration of Concrete parking lots by owners for new construction, with growing success.
