UNION MISSOURI SCHOOL DISTRICT NEW EARLY CHILDHOOD CENTER TO INCLUDE ICF STORM SHELTER

The Union, MO School District is planning a new 34,000 SF Early Childhood Center funded by proceeds of a successful bond election. The new building will house the school's special education program and early childhood program. Each program consists of six classrooms. The project contains a single-story ICC-500-rated storm shelter constructed with Insulated Concrete Forms (ICF).

Construction is currently underway elsewhere in the district on the new Storm Shelter Gymnasium project at the District's Central Elementary School. These two projects, along with potential future ICF projects in the District, illustrate the Concrete Council's strategy to "Change the Default" for owners with multiple building assets.
