

NOVEMBER 2025

# UNION SCHOOL DISTRICT CENTRAL SCHOOL STORM SHELTER | STEM CENTER

Voters approved bond funding for several projects including a new 7,400 SF storm shelter addition to the existing Central Elementary School Building. The project consists of a single-story ICC-500 rated storm shelter with an ICF shell and concrete lid. The shelter will house the school's music, art, STEM and computer lab programs.

For some time, the Concrete Council in connection with the NRMCA BuildWithStrength program, have pursued consideration of Insulated Concrete Forms (ICF) for this and other projects. The project is being managed by Navigate Building Solutions, who were also involved in other ICF school projects promoted in connection with the Concrete Council. District voters approved another project, a new Early Childhood Education Center, in the same bond issue, and we have been informed that Insulated Concrete Forms construction is also being considered for that project.
