

OCTOBER 2025

ST. RAPHAEL THE ARCHANGEL CATHOLIC PARISH Concrete Parking Lot Overlay

After multiple visits and conversations and engineering and logistics insights, St. Raphael the Archangel Catholic Parish has decided to extend the life of its parking lot with a Concrete overlay. The photo above illustrates the condition of a deteriorated asphalt lot. The Concrete overlay will create a bright, safe, durable long-term asset to serve the parish and school

community for years to come, while providing a very welcoming entryway as well as a great, cooler, pleasant venue for parish picnics and other activities. The project will utilize around 1,000 cubic yards of Concrete and the contract has been awarded to a Concrete Council member, from a list of contractors that we provided for bidding. We are also planning a demonstration event to which we have invited church and school facilities executives from around the metro area.
